

## SUBU Summit Ideas

<b>Proposed by</b>	Valerija Kipore
<b>Proposal</b>	SUBU to lobby BU for lecture and seminar resources to be made available 1 week in advance.
<b>Problem</b>	<ul style="list-style-type: none"><li>• Lecture and seminar resources are being uploaded late 1 day before or even on the day. This does not allow students enough time to access resources and go through them due to other responsibilities, such as work and families.</li><li>• For some students, having access to teaching materials in advance is critical in providing them with equity of learning opportunity in relation to Additional Learning Requirements (ALN) and reasonable adjustments</li><li>• Furthermore, it is required from students to make lecture notes before lecture to become familiar with the topic. This is not possible when some lecturers are posting lecture slides on the day, sometimes less than an hour before the actual lecture.</li></ul>
<b>Ideas for solutions</b>	<ul style="list-style-type: none"><li>• For SUBU to lobby BU to upload lecture and seminar resources to Brightspace one week in advance.</li></ul>
<b>To be implemented by</b>	SU VP Education
